The introduction of the Scotia Caribbean App follows recent upgrades made to the Bank’s online banking platform - Scotia OnLine, which now offers clients enhanced security through the use of One Time Passwords (OTP). An OTP is a second layer of security, which is used to protect your account. Furthermore, new bill payees have been added, providing clients with the ability to pay all their essential bills anytime, anywhere. The most recent addition is Mobile Money Guyana. Other bill payees include GPL, GWI, GTT, E-Networks, Digicel, Nexlink, Courts and many more!

The Bank is also incorporating digital advancements into its ATM functionalities, with upgrades coming soon, along with an expanded ATM footprint.
